SHARE BETTER EATING

D. Brian's Kitchen & Catering, locally owned and operated, is committed to Better Eating. We believe better eating results in better living. What does our Better Eating promise mean? We source only the best ingredients that meet our specifications for all natural — that means no artificial ingredients and no chemical preservatives. We use local and organic ingredients whenever possible. Our soup is made from scratch in small batches and our salmon is BAP certified. We feature all natural and locally sourced sausage patties and ham, and our bread is delivered fresh every day from a local bakery.

Our employees are like family and many have been with us for several years. We believe people deserve respect and dignity, a living wage, and a company-sponsored health insurance plan. We train and promote from within, to give opportunity to all. To us, family and health are more important than work, and we believe in the American Dream, where immigrants and our children can improve their lot in life.

Our story started in 1987 when the founder had one goal — make it easy for people to eat better. Over the course of these last 30 years one thing still holds true: we value you, our customer, and it is our pleasure every day to serve you. Without you, we would not be able to do what we love. So thank you from all of us. Please let us know what we can do to continue our mission of offering Better Eating.

Sincerely,
The D. Brian's family
